provide code **BR1PP91718**
and click "Continue."

Activate within 24 hours of adoption!

WHY MEDICAL INSURANCE FOR PETS?

Owning a kitten is a big commitment — emotionally and sometimes financially. Medical insurance for pets helps remove financial barriers, so if your cat gets sick or hurt, your veterinarian can provide the best care possible for your furry friend — while helping ease your worries about money.

The Trupanion plan pays 90% of eligible veterinary costs for any new injury or illness, including hereditary and congenital conditions. And you're covered at any veterinary practice in the US, Canada, or Puerto Rico — all US and military installations included (CONUS and OCONUS).

**Call 855.266.2156 within 24 hours
to activate your 30 days of coverage.**

Terms and conditions apply. Please see the policy for complete details at Trupanion.com/pet-insurance.
